

MOSCOW STATE UNIVERSITY OF GEODESY & CARTOGRAPHY (MIIGAIK)

Project

“Establishment of Centers for Competence and
Employability Development”

COMPLETE

2015

MIIGAIK IS ONE OF THE OLDEST
UNIVERSITIES IN RUSSIA
(1779)

MIIGAIK TODAY

MIIGAIK is the center of higher surveying education in Russia and the largest educational institution of this type in Europe.

In early 1900–s earth engineering has become one of the key educational profiles of MIIGAIK.

University is actively participating in the exploration of outer space and application of the results of this exploration to science, economy, agriculture, geological prospecting and ecology.

Most of national geodetic, optical services and topographic enterprises of different countries have close and mutually advantageous economic and scientific relations with the University.

INTERNATIONAL ACTIVITIES OF MIIGAIG

Since 2008 MIIGAIG has started process of integration into European educational field. Introduction of Bologna principles and design of training programmes in line with Bologna is one of the key directions of the University further development. Interaction with European and Russian HEIs within the frames of Erasmus+ programme enabled University to communicate for further developments.

Some of our projects:

- **Independent Quality Assurance model for degree programmes in Russia** (530838-TEMPUS-1-2012-1-RU-TEMPUS-SMGR) - GRANTHOLDER
- **Validation of non-formal/informal learning in Russian higher education** (544405-TEMPUS-1-2013-1-AT-TEMPUS-SMHES).
